

This practice is supported by Optimum Patient Care

Optimum Patient Care (OPC) is a social enterprise working with over 500 practices across the UK, to support care and management of patients. To provide this support, OPC works with practice records which have been stripped of all patient identifiable information.

This service complies with NHS Information Governance standards and UK Data Protection laws to ensure your data is always protected. You have the right to opt out. If you wish to opt out, simply let your GP know.

Want more information?

Please speak to your GP or the Practice Manager. To learn more about OPC, visit our website or get in touch.
